

XTissue Stainer YABO-700

Product specifications :

- It can continuously run the dye box.
- Color LCD touch screen display.
- Ion purifying can completely remove harmful substances without maintenance.
- Six common operating procedures can be stored.
- Automatic location memory function.
- With alarm function.
- Anti-card cylinder function.
- With drying cylinder.
- Automatic water inlet, drainage.
- The running parts adopt bearing linear guides, which have high precision, low resistance, stable operation and wear resistance, and can maintain their reliability for a long time.

Technical Data

Number of cylinders	18(One cleaning cylinder, one drying cylinder)
Capacity	1000ml (Single basket 47 slides) (double baskets run together will be 94 slides)
Operation mode	Running multiple baskets continuously
Set time per cylinder	1 second~99 minutes 59 seconds
Set temperature	0°C~99°C
Storable program	8 sets
The basket rises and trembles	0-10 times
Dimensions	140x50x55cm
